TO MODLE-AGED MEN.—There are many from the age of 30 to 60 who are troubled with frequent evacuations of the sladder, often accompanied by a slight burning or smarting tensor house of the cause, which is a second stage of seminal weakness. We will guarantee a perfect cure in all such cases, and a healthy restoration of the genito-urnary organs.

FREE EXAMINATION OF THE URINE.—Each person applying for medical treatment should send or bring from 2 to 4 concess of urine standards.

or bring from 2 to 4 ounces of urine (that passed first in the moraing preferred), which will receive a careful chemical and microscopical examination, and if requested a written analysis will be given.
